**Marc A. Zussman of OrthoIllinois Named to Prestigious
2019-2020 Best Doctors In America® List**

ROCKFORD, IL ... **April 1, 2020 ... Marc A. Zussman, MD** of OrthoIllinois has been peer selected to the Best Doctors in America® List for 2019-2020. Approximately, four percent of doctors in America earn this prestigious honor, as a result of the biennial Best Doctors Poll. Each listed physician has received peer consensus as a physician from whom other physicians would seek care and is verified as being clinically active with an active medical license free from disqualifying disciplinary actions.

A selected Best Doctor doesn't remain in the database forever. The peer-review process requires every listed physician to be re-evaluated by their peers in each poll. Dr. Zussman has been named to this honor since 2017. Best Doctors does not pay physicians to be included in the database, nor can physicians or their organizations pay Best Doctors. A physician cannot apply to become a Best Doctors physician. The only way for a physician to be selected is to be nominated by and then receive voting consensus from current Best Doctors physicians.

As a result, Best Doctors has a proprietary, global database of physicians – free from commercial and financial bias—numbering more than 50,000 in over 450 specialties and subspecialties worldwide. There are close to 40,000 Best Doctors physicians in the U.S.

Gallup® has audited and certified Best Doctors, Inc.'s database of physicians, and its companion Best Doctors in America® List, as using the highest industry standards, survey methodology and processes.
